Highest Security Levels

PCI PTS 4.x certified, the iUC285 meets the highest and latest hardware and software security requirements. The iUC285 also complies with SRED and provides flexible options with Open Protocol modules.

All Payment Options, including NFC/Contactless

The iUC285 accepts EMV and NFC/Contactless payments enabling mobile wallet acceptance, including ApplePay & Android Pay. The device is MasterCard® Contactless, Visa PayWave®, American Express® Contactless, Discover® Zip and Interac Flash® ready.

Highly Ruggedized

Thanks to its robust design, the iUC285 stands up to the most demanding outdoor environments and a wide variety of adverse environmental conditions. The iUC285 device is proofed against vandalism (IK10) and extreme weather (IP54)

Telium 2 Technology

Powered by Ingenico Group, Telium2 Technology is the result of 30 years' experience in the payment industry. Secure, highly integrated and fast, Telium is the world's best platform to provide payment services. It provides a fully scalable, reliable operating system embedded into Ingenico Group's 27 million terminals deployed worldwide

Easy Integration

The compact iUC285 is embedded in its enclosure and integrated according to the European Vending Association (EVA) market standard. External mounting makes for a simple installation and maintenance requires no additional equipment or commissioning.

User-friendly Design

The iUC285 provides a simple and friendly interface with a high contrast backlit graphic display that provides clear user guidance throughout the interaction.

Designed for Intelligent Systems

The iUC285 is a standalone, all-in-one device designed for intelligent vending machines and kiosks – ones powered by an on-board computer typically used to manage large displays and/or telemetry.

Eco-friendly

Stand-by mode guarantees optimal energy efficiency. Ingenico Group is committed to safeguarding the environment. Ingenico's manufacturing facilities are IOS 14001 Certified
