

Hemisphere West Europe
PAYMENT SPECIALISTS

OUR CHOICE FOR MAKING PAYMENTS IS CHANGING

THE INCREASE IN CONTACTLESS PAYMENTS

Our views and decisions for making payments is changing. Shopping for goods and services with a heightened awareness of safety has increased contactless payments in every industry.

The Ingenico Lane 3000 is certified and ready for deployment with NMI's Payment gateway platform.

Come and talk to us about starting your journey to easier payments.

GOODBYE OLD FRIENDS, HELLO NEW

The payment card industry manages the length of time a device can be deployed before the version starts its sunset period. Sunset dates:

- PTS V3 devices - 30th April 2021
- PTS V4 devices - 30th April 2023
- PTS V5 devices - 30th April 2026

Products with expired PCI PTS Version 3 approvals are no longer available for new deployments, other than where a device is repaired and replacement needed.

With this in mind why not talk to us about the next generation of payment devices available now for live deployments.

MORE OF HWE STOCKED PRODUCT LINES

All of our products hold certification across a number of payment gateways and acquiring partners.

Deployable now for your project and payment requirements, supported subject to device, in UK, Europe, USA and Canada.
